

# Proposed Electricians (Scotland) Bill

## Introduction

A proposal for a bill to provide for the protection of title and registration of electricians. The consultation runs from 19 August to 10 November 2020. All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document. Questions marked with an asterisk (\*) require an answer. All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response. Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded. Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here: [Consultation Document](#) [Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice attached to this consultation which explains how my personal data will be used

## About you

Please choose whether you are responding as an individual or on behalf of an organisation. Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Professional with experience in a relevant subject

**Optional: You may wish to explain briefly what expertise or experience you have that is relevant to the subject-matter of the consultation:**  
SJIB Approved Electrician

Please select the category which best describes your organisation

*No Response*

Please choose one of the following:

I am content for this response to be published and attributed to me or my organisation

Please provide your name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

JAMIE CURRIE

## Aim and approach

Q1. Which of the following best expresses your view of the proposed Bill?

Fully supportive

**Please explain the reasons for your response.**

I see too much dangerous electrical work carried out by non qualified "electricians"

Q2. What do you think would be the main practical advantages of the proposed Bill?

Better safety for consumer and general public

Q3. What do you think would be the main practical disadvantages of the proposed Bill?

None

Q4. Which of the following best expresses your view of the establishment of a single register for electricians?

Fully supportive

**Please give any views or comments on a single register and how it might be set up**

All electricians should be able to apply and show their qualifications to be accepted onto register. Experienced non qualified electricians will need to pass a "trade test" in order to be qualified. SELECT will hopefully organise a course and test for non qualified electricians who have not followed the normal apprenticeship or adult trainee path into a career as an electrician.

Q5. Which of the following best expresses your view of establishing protection of title for electricians?

Fully supportive

Q5. Which of the following best expresses your view of establishing protection of title for electricians?

**Please give any views or comments either on the principle or practical operation of protection of title:**

It's ridiculous anyone of the street can call themselves an electrician without any appropriate training

## Financial Implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
<b>(a) Government and the public sector</b>			X			
<b>(b) Businesses</b>			X			
<b>(c) Individuals</b>		X				

**Please explain the reasons for your response**

I don't think there will be an increase in cost to Government and private sector. Businesses who are already registered with SELECT or NICEIC should already employ registered electricians. Cost to individuals will increase to become on the register. This should be offset in there wages as currently our hourly rate does not reflect the responsibilities we have as an electrician. A significant wage rise should more than cover additional costs to individuals.

Q7. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Increase membership Registration costs to individuals. While increasing there pay so they are not hit in there own pocket. Overall the consumer will pay more. The U.K. as a whole has some of the worst pay for electricians in comparison to other sectors. Looking around the world electricians are awarded with a much better pay compared to other sectors.

## Equalities

Q8. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Q9. In what ways could any negative impact of the Bill on equality be minimised or avoided?

Unsure

## Sustainability

Q10. Do you consider that the proposed Bill can be delivered sustainably, i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

## General

Q11. Do you have any other comments or suggestions on the proposal?

This Bill needs to be passed as quickly as possible to weed out rouge traders who call themselves electricians.
