

Proposed Electricians (Scotland) Bill

Introduction

A proposal for a bill to provide for the protection of title and registration of electricians. The consultation runs from 19 August to 10 November 2020. All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document. Questions marked with an asterisk (*) require an answer. All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response. Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded. Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here: [Consultation Document](#) [Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice attached to this consultation which explains how my personal data will be used

Aim and approach

Q1. Which of the following best expresses your view of the proposed Bill?

Fully supportive

Please explain the reasons for your response.

Efforts to improve the safety of the public are to be welcomed.

Q2. What do you think would be the main practical advantages of the proposed Bill?

Filter our rogue traders

Q3. What do you think would be the main practical disadvantages of the proposed Bill?

Not sure.

Q4. Which of the following best expresses your view of the establishment of a single register for electricians?

Neutral (neither support nor oppose)

Please give any views or comments on a single register and how it might be set up

Existing industry bodies could handle this matter.

Q5. Which of the following best expresses your view of establishing protection of title for electricians?

Fully supportive

Please give any views or comments either on the principle or practical operation of protection of title:

Would ensure public confidence.

Financial Implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector			X			
(b) Businesses			X			
(c) Individuals		X				

Please explain the reasons for your response

Limit the scope for cash-in-hand black economy operators.
VAT is never enjoyed by clients.

Q7. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Not sure.

Equalities

Q8. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

Please explain the reasons for your response.

The existing trade bodies and electrical safety charities embrace this ethos in their core values.

Q9. In what ways could any negative impact of the Bill on equality be minimised or avoided?

Do not foresee any negative impact.

Sustainability

Q10. Do you consider that the proposed Bill can be delivered sustainably, i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

Q10. Do you consider that the proposed Bill can be delivered sustainably, i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Please explain the reasons for your response.

Cost savings from enhanced safety and less blue-light interventions would be of economic & social benefit.

General

Q11. Do you have any other comments or suggestions on the proposal?

Keen to see progress, this has been slow moving for too long.
